SCHEDULE OF EVENTS

WEDNESDAY, JUNE 14, 2023

8:30 A.M. - 12 P.M.

REAL ESTATE PERFORMANCE AND INVESTMENT ANALYSIS USING EXCEL

*Joseph Larkin, CCIM, MCR, SIOR
Approved for 7 hours C.E. Credit*

How to determine if a real estate investment makes financial sense? You start by building a proforma economic model and applying performance measurements to determine if the asset meets the financial objectives.

This course is designed specifically for real estate professionals interested in expanding their knowledge of investment real estate. Attendees will use prepopulated Excel workbooks that allow fast calculations of vital financial measurements to evaluate a real estate investment quickly and effectively.

Applying performance measurements will illustrate how the property may perform in the future. Financial modeling will demonstrate various returns based on different investors' goals. We will explore financing. Will leverage increase or decrease the overall investment return, and how will the financing impact the property's future performance? Real Estate Performance and Investment Analysis using Excel is essential for any real estate investor or practitioner. The attendee will leave with the knowledge and financial tools that can be applied immediately to evaluate any real estate investment!

Hosted by Upstate NY CCIM Chapter

CREATING WEALTH THROUGH 1031 EXCHANGES

Russell Gullo, CCIM

Submitted for 3 hours CE Credit

Attendees will learn about the "Best Kept Secret In Real Estate". They will learn how to pay no tax when disposing of business/investment-held property; what the requirements are, including the time frames, who the four parties are and how to set up a 1031 exchange.

Attendees will also learn what is meant about the meaning of "like-kind"; what property can you give up and what property can you receive as well as where can you acquire the replacement property, how many properties can be involved in a 1031 exchange and examples will be explained.

Learn about the different advantages of performing a 1031 exchange, how you are able to create wealth using 100% of your equity; types of 1031 exchanges; reverse exchange; combination reverse & deferred exchange (Extra 180 Days); improvement exchange; installment sale/1031 exchange; partial exchange; common formulas and their benefits will be reviewed.

9 A.M. - 12 P.M.

LEASE VS. PURCHASE ANALYSIS FOR COMMERCIAL REAL ESTATE

Joseph Larkin, CCIM, MCR, SIOR

Submitted for 3 hours CE Credit

For most businesses, the cost to occupy real estate is typically the second most expensive item on the profit and loss statement. As a broker, leasing agent, or consultant, you may be asked to advise a client on the merits of leasing or purchasing commercial real estate. This case-study-driven course will provide you with the tools to answer the question, which is better, leasing or owning?

Looking through the lens of the business, we will explore the choices and how those options are evaluated. A cost-to-occupy model will provide financial and non-financial measurements in the decision-making process. Providing a high level of value to your client.

A laptop computer with a full version of Excel is required. During the course, the attendee will be provided with an Excel-programmed workbook. Providing an opportunity to complete "what if" scenarios.

12 - 1 P.M.

LUNCH SESSION

Speaker: J. Shelby Schneider, Deputy Director, NYS Economic Development Council

1 - 3 P.M.

LEASE VS PURCHASE CLASS - PART II

Joseph Larkin, CCIM, MCR, SIOR

Submitted for 2 hours CE Credit

Students will have a Case Study and will analyze the client's options. There will be a group activity: Each group will present their results and explain their recommendation to their clients.
